PROFESSIONAL SUMMARY

Full Stack Developer specializing in the JavaScript/TypeScript ecosystem (Node.js, React.js, Next.js), with practical experience in integrating Generative AI and LLMs into modern applications, product validation (MVPs), and process automation. Expertise in REST API architecture, Clean Code, SOLID principles, and Docker, delivering scalable systems with test coverage via Jest and applied Prompt Engineering. Career military officer transitioning to tech, bringing leadership, discipline, and a strong focus on results directly to software development within multidisciplinary teams.

PROFESSIONAL EXPERIENCE

Full Stack Developer · Rocketseat (Bootcamp & Certifications)

Jan/2024 – Present

- Developed full-stack applications using Node.js, React.js, and Next.js, integrating Generative AI via LLM APIs for feature automation, which significantly reduced implementation time.
- Designed and implemented REST APIs with Express.js, TypeScript, and Zod for validation, applying SOLID principles and Clean Code, resulting in robust Jest test coverage.
- Containerized environments using Docker and managed PostgreSQL and MongoDB databases via TypeORM/Drizzle, minimizing environment inconsistencies.
- Applied Prompt Engineering to integrate LLMs into content generation and automated support features, increasing overall productivity.
- Applied Product Discovery concepts and No-Code/Low-Code tools (Lovable.dev and Supabase) for rapid prototyping and validation of MVPs, in addition to integrating Text2SQL for data democratization.

Team Leader · Career Military Officer · Brazilian Army (Defense & Security)

Apr/2015 – Present

- Led teams in high-pressure environments, developing methodologies based on technical discipline and agile management that increased operational efficiency.
- Managed high-complexity inventory control via the SISCOFIS system, successfully reducing discrepancies.
- Handled logistical resources and complex asset tracking under rigorous regulatory standards.
- Developed workflows centered around discipline, resilience, and a strong commitment to results.
- Drafted technical reports and structured operational process documentation.

SKILLS & KNOWLEDGE

- **Backend:** Node.js, Express.js, TypeScript, REST API, Zod, Nodemailer

- **Frontend:** React.js, Next.js, React Native, Tailwind CSS, HTML5, CSS3, Vite, Bootstrap
- **AI & Automation:** Generative AI, LLM Integration, Prompt Engineering, n8n, Product Discovery (Perplexity, NotebookLM), No-Code/Low-Code (Lovable.dev, Supabase), Fireflies.ai
- **Data & Infra:** PostgreSQL, MongoDB, Redis, SQLite, Docker, TypeORM, Drizzle, Text2SQL (Julius.ai, Text2SQL.ai)
- **Quality:** Clean Code, SOLID Principles, Design Patterns, Jest, TDD, RWD (Responsive Web Design)
- **Tools:** Git, GitHub, Figma, Insomnia, DBeaver, Gamma App
- **Soft Skills:** Leadership, Team Management, Decision Making, Resilience, Effective Communication
- **Languages:** Portuguese (Native) · English (Intermediate)

EDUCATION

- **Postgraduate Degree in Software Engineering**
Centro Universitário FECAF (UniFECAF) · *Completed: May/2024*
- **Associate Degree in Systems Analysis and Development**
Faculdade Sul-Americana Educacional (FASUL) · *Expected Graduation: July/2027*

CERTIFICATIONS & COURSES

- **AI for Product (IA para Produto - 6h)** · Rocketseat · *Issued: May 2026*
- **Taskmaster: Automating Development Tasks with AI Agents (5h)** · Rocketseat · *Issued: May 2026*
- **Node.js with Generative AI in Practice (Node.js com IA Generativa na prática)** · Rocketseat · *Issued: Apr 2026*
- **Fundamentals of HTML and CSS (Fundamentos de HTML e CSS)** · Rocketseat · *Issued: Feb 2026*
- **Clean Code** · Rocketseat · *Issued: Jan 2026*
- **Introduction to Automation with n8n (Introdução à Automação com n8n)** · Rocketseat · *Issued: Oct 2025*
- **The Basics of Git and GitHub (O básico de Git e GitHub)** · Rocketseat · *Issued: Oct 2025*
- **Discover (JavaScript, HTML5, CSS3, OOP - 60h)** · Rocketseat · *Issued: May 2024*
- **GoStack (Node.js, React.js, React Native - 80h)** · Rocketseat
- **Full Stack Training (Frontend, Backend, TypeScript - 30h)** · Rocketseat
